Projects

Word Party / React, Firebase, REST APIs   Live / Repo

- Allows users to enter their word of choice into the app, which outputs additional words that match the criteria selected by the user, such as rhymes for the word which can be stored in Firebase
- Built in React using Routers, with a connection to Firebase and the Datamuse API. The app allows users to store a list of selected words in Firebase for future use.

Pokemon Guessing Game / JavaScript, REST APIs   Live / Repo

- A guessing game designed using the PokeAPI, which includes a score counter and pokemon re-roll capabilities.
- Used Javascript and access to REST APIs to allow users to continuously guess

Delicious / HTML, CSS, JavaScript   Live / Repo

- Fully responsive web page brought to life based off preset designs
- Used HTML and CSS to allow users to experience flying colors through an accessible website, including a fully responsive navigation bar using Javascript

Experience

Experienced Staff Accountant / KPMG LLP / Technology Audit

Vaughan, Ontario   Oct 2020 – Feb 2022

- Assisted large public technology and SaaS companies with audit procedures leveraging strong technological background
- Managed client relationships through communicating status, addressing client concerns and project management, which streamlined workflows
- Executed audit procedures for complex accounting issues using problem-solving abilities, resulting in increased audit efficiencies

Staff Accountant / KPMG LLP / Enterprise Tax

Vaughan, Ontario   Jan 2019 – Aug 2019

- Prepared corporation, partnership and personal tax returns for mid market enterprises with attention to detail
- Prepared tax provisions to calculate tax liabilities for clients, ensuring tax savings through optimal tax planning

Staff Accountant / Bennett Gold LLP

North York, Ontario   Jan 2018 – Apr 2018

- Planned and executed risk based audit procedures, performed inventory counts and communicated results effectively through audit memos which lead to the completion of audit opinion
